2/1 Game Force System (2/1)

Introduction

I was first introduced to 2/1 in the mid-to late 80's. The concepts, ideas and bidding theory were revolutionary. I read Max Hardy's original book in one sitting. Pouring over the pages, backtracking to track down an elusive passage that I felt pertained to a later idea. It didn't take long to realize that what he had put together was a collection of bids which formed a complete system built to solve the problem hands we all encountered; not just a description of the single bid ...2/1.

Through the years players have taken portions of the system to play in isolation, added new treatments and ideas and/or created new bids (or variations of the original bids) to add substance and versatility.

Taking a bid from the system to play in isolation, without adopting the complete system, is to your disadvantage. Learn the entire system. See how the bids work in concert. Bite the bullet, as you must with any new bid, and accept the bad boards you will get during your learning curve and then enjoy the new found freedom you will experience in playing 2/1.
